

Upgrade your
old MiniProf!

20% trade-in discount

Time for a new MiniProf system?

Should you at some point wish to upgrade your MiniProf to a brand-new MiniProf BT system, including access to the Envision and Criterion software, we offer a 20% special discount when trading in your old MiniProf unit.

All types of MiniProf systems are accepted regardless of state and age.

Want to upgrade from laser to full contact? No problem! We offer the same trade-in discount for trade-in of similar handheld laser-based equipment. All laser-based trade-ins are subject to approval of brand and type by Greenwood Engineering.

The trade-in discount cannot be combined with other offers or special arrangements.

Contact the MiniProf team or your local MiniProf agent for details.
